

New, News, News!!!

March 12, 2010

Bell School is offering after school math and ELA enrichment classes. The classes will be starting on March 23.

In math we are studying geometry and division. We will also be having a graded multiplication speed tests each week. I am looking forward to getting the yellow Refrigerator Math Facts sheet signed(to 12x 12) by March 25!

This week we had a practice test for the ELA (reading and writing) Test. We started to review some of the frequently missed questions at school. Please go over your child's test with him/her this weekend. Next week we will be doing a practice test in math.

Please do not schedule your child for appointments during the test weeks. Since the tests are so close together, rescheduling you child's test will be difficult.

- **Five week grades** come home March 12th
- **No School Mar. 19th**
- **Poetry Recitation** Thursday, Mar. 18th at 6:30
